Subject: FW: final exercise EHCSS (JLI) protocol summary

Dear Herman,
I am sending you the protocol summary for an exercise tolerance study. Please let me know if you could do the study and if so, when and at which price. We are looking for a full service including protocol writing, data evaluation and reporting. Analytical work for exposure markers are excluded, we have vendors which have validated methods in place. The urine and blood samples have to be shipped to these vendors, results will be transferred back electronically, e.g. in Excel files.
Looking forward to hearing from you
Best regards
Juergen
